

Technology Stack

Date	26 June 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum marks	2 Marks

Technology Stack Details

S.no	Architecture Component / Layer	Technology Chosen	Justification / Purpose
1	Frontend / Client-Side	Gradio (Python UI Framework)	Provides a simple, interactive, and responsive web interface for users to enter applicant details and view predictions.
2	Backend / Server-Side	Python,	Used for data preprocessing, model training, and prediction logic due to its extensive ML ecosystem.
3	Database / Data Storage	CSV Files (application_record.csv and credit_record.csv)	Stores customer application details and historical credit records for model training and testing.
4	Cloud / Hosting / Deployment	Google Colab + Gradio Share Link	Enables free cloud execution and easy deployment without server setup.
5	Version Control & CI/CD	GitHub	Used for code management, collaboration, and version tracking
6	Third-Party APIs / Other Tools	Scikit-learn, Pandas, NumPy, Matplotlib, Gradio	Used for machine learning, preprocessing, visualization, and application interface development
