

Problem-Solution Fit

Date	7 th July 2026
Team ID	
Project Name	Credit Card Approval Predication
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENTS (CS) • Banks and Financial Institutions • Credit Card Applicants • Loan Processing Departments • Risk Assessment Teams	6. CUSTOMER LIMITATIONS (CL) • Limited financial records. • Incomplete applicant information. • Budget constraints for small financial organizations.	5. AVAILABLE SOLUTIONS (AS) Traditional Manual Verification Pros: • Human judgement. Cons: • Slow process. • Prone to errors. • Expensive operations. Existing Rule-Based Systems Pros: • Faster than manual methods. Cons:
--	---	---

		• Limited flexibility. • Poor adaptation to changing patterns.
2. PROBLEMS / PAINS + FREQUENCY (PR) • Manual credit approval takes significant time. • Human decisions may be inconsistent. • High probability of approving risky applicants. • Financial institutions suffer losses due to defaults. Frequency: Daily and high volume.	9. PROBLEM ROOT / CAUSE (RC) • Manual verification processes. • Lack of predictive analytics. • Inability to identify risky customers effectively.	7. BEHAVIOR + ITS INTENSITY (BE) • Applicants expect instant approval results. • Financial institutions process thousands of applications monthly. Intensity: High.
3. TRIGGERS TO ACT (TR) • Increase in credit card applications. • Requirement for faster approvals. • Need to reduce financial risk. • Digital transformation in banking.	10. YOUR SOLUTION (SL) A Machine Learning based Credit Card Approval Prediction System that analyzes applicant financial information and predicts whether the credit card should be approved or rejected, helping institutions reduce risk and improve efficiency.	8. CHANNELS OF BEHAVIOR (CH) Online: • Banking Websites • Mobile Applications • Financial Portals Offline: • Bank Branches • Financial Service Centers
4. EMOTIONS BEFORE / AFTER (EM) Before:		OFFLINE

- **Anxiety regarding approval decision.**
- **Uncertainty about eligibility.**

After:

- **Faster decision making.**
- **Increased confidence and transparency.**
