

Solution Architecture

Date	7 th july 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Collects user input and displays prediction results	<i>Gradio</i>
API Gateway	Handles communication between UI and model	Python Functions
Core Logic Service	Performs preprocessing and prediction	Scikit-learn, Pandas
Database	<i>Stores datasets and model files</i>	CSV Files
Machine Learning Layer	<i>Generates approval predictions</i>	Random Forest Classifier
