

Scalability & Future Plan

Date	7 th july 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.no	Limitation	Impact	Priority
1	Limited dataset size	May affect generalization	High
2	Class imbalance	Lower prediction performance for minority class	High
3	Local deployment	Limited accessibility	Medium

Scalability Plan:

S.no	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports limited users	Deploy on cloud infrastructure
2	Data Storage	CSV files	Use SQL database
3	Performance	Single model prediction	Use optimized inference pipelines
4	Security	Basic validation	Implement authentication and encryption

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	SMOTE for class balancing	2 Months	Improved prediction accuracy
Phase 2	Explainable AI (XAI)	4 Months	Better transparency
Phase 3	Cloud Deployment (AWS/Azure)	6 Months	Higher scalability

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 4	Banking API Integration	12 Months	Real-time credit verification
